Duane: thanks again for the nice job you did today on the demo. These are fairly large deals as an fyi otherwise we would not be wasting your time. Each company is 200 in size.

Actually, it doesn't save time. Since we have to setup the code on our end, adding the filter is just part of the process. Ya'll just have to make sure that you indicate if the code should be billed or returned at the time you request the code setup.

Thanks  
Duane

Hi Duane,  
Is there any reason why we couldn't have access to the filters???  
It would save a lot of time between you guys and us in terms of setting up a code.

Let me know why you think this is not something we can have.

Thanks.

Actually, you shouldn't have had filters in the first place. Thank you for bringing it to my attention. Whatever items you need filtered can be requested to Paul or myself.

Thanks

Good Morning,

Hope you both had a nice long weekend. I know you had beautiful weather and of course it rained here all weekend. YUCK!

I just double checked all of our "master" companies and we do not have access to the filters on Lewtan (LEWT) and Lahive & Cockfield (LAHC). Please open this up for us. I need to make a couple of changes to deductions that are currently going back to the client and should be staying with us and I'm unable to do it.

Please let me know when this is done.

Thanks much,  
Mariss

Thanks Duane for your help this morning. This is just a recap of our conversation.

Amicas: Ted Crowell is now in the system as a manager to get information. You will add other names as we send them to you which Marissa will respond to you and get you this information. They still will not have report writing capability nor payroll entry. You are working on solutions to get this resolved timely.

Quality, Unishippers, Lahive are all set and can use all functionalities for the web.

Colonial: they are up and running with Sue as the manager and all ee's have the ability to change information in the system. If there is a problem they should send the concern on the web to you Duane. I will call Sue with this info now and inform her.

I think that is it for now thanks again
